Information for Learners

The following information explains what may happen following a review of marking and any subsequent appeal.

If your school or college applies for a clerical re-check or a review of the original marking, and then a subsequent appeal, for one of your assessments after your subject grade has been issued, there are three possible outcomes:

- Your original mark is lowered, so your final grade may be lower than the original grade you received.
- Your original mark is confirmed as correct, so there is no change to your grade.
- Your original mark is raised, so your final grade may be higher than the original grade you received.

I give my consent for the head of my examination centre to submit a clerical re-check or a review of marking for the assessment(s) listed above. In giving consent, I understand that the final subject grade and/or mark awarded to me following a review of marking, and any subsequent appeal, may be lower than, higher than, or the same as the result which was originally awarded for this subject.
